OBJECTIVE

Recent graduate eager to launch a career with a focus on learning, growing, and making a meaningful contribution.

EDUCATION

Government College of Engineering

Bachelor of Technology in Information Technology (CGPA 8.82)

Erode, Tamil Nadu

Nov 2021 – May 2025

Ideal Matriculation Higher Secondary School

HSC (Completed with 95 %)

Aranthangi, Tamil Nadu

June 2021

Amirtha Vidya Vikaas Higher Secondary School

SSLC (Completed with 97 %)

Aranthangi, Tamil Nadu

March 2019

TECHNICAL SKILLS

- ◇ **Languages:** Core Java, HTML/CSS, Python
- ◇ **Developer Tools:** VS Code, IntelliJ IDEA, Eclipse IDE, Git, GitHub, Postman
- ◇ **Database:** MySQL, PostgreSQL, Cassandra, Redis
- ◇ **Frameworks:** Spring Boot, Fastapi, React

PROJECTS

AI-Powered Log Analysis | *Spring Boot, Ollama, Redis, GitHub API*

Dec 2025

- Built a log analysis platform using Spring Boot REST APIs to process uploaded log files, perform time-filtered analysis, and detect recurring application errors.
- Implemented a regex-based log parsing engine that extracts error types, stack traces, and metadata, and groups errors into configurable time windows to detect spikes.
- Integrated GitHub GraphQL API to perform automated blame analysis, identifying the commit and author responsible for error lines in stack traces, and leveraged Ollama (local LLM) with Redis caching to generate automated error summaries and fix suggestions.

URL Monitoring | *HTML/CSS, Java, Servlet, Cassandra, Redis*

Oct 2025

- Developed a distributed URL monitoring system using Java Servlets to track website uptime and performance.
- Implemented a multi-threaded architecture for parallel health checks.
- Integrated Redis (Lettuce) for real-time configuration/metadata and Cassandra for scalable time-series data storage.

INTERNSHIP EXPERIENCE

Zoho School of Graduate Studies

Incubation Trainee

July 2025 – March 2026

- Acquired in-depth knowledge of Java programming and SQL for back-end development.
- Gained hands-on experience with Servlets, JDBC and web application development.
- Worked on a project that integrated Java and SQL with Servlets to build a functional and dynamic application.

Medha Analytics and AI (Narayana Healths)

Partner Support Intern

Feb 2025 - June 2025

- Performed manual testing.
- Used Postman to test and validate REST APIs, ensuring reliable integration and smooth data flow.
- Identified bugs, ensuring high software quality in collaboration with QA teams.
